

March 22, 2022

I'm John Lunetta writing from Northwest Montana...

I've had the opportunity to trap Coyote, and Wolf under Bill Christmans instruction, in Big Sky Country Montana, for the last 5-years...

My trapping background stretches over-some 60-years, I've always "struggled" on catching Canines with "consistency and confidence" ... My regular disappointment was my "normal experience", "year after year of frustration" ...

I was never getting any better, and wanted to break-through the slump, working on being a Top-Notch Wolfer.... I personally take my trapping, wildlife control work, very serious...

I hired Bill 5-years ago, he flew to Montana, spent 3-days with me on the trap-line... Hard to believe, within 10-days after he left, I caught 11-Coyotes, and 1-Black Wolf... I was in Aw!!! My Wife was Happier for me...

Like most successful people, they live their passion.... Bill's passion is Coyotes, Coyotes, and more Coyotes.... Bill has earned his background; Founder of Urban Coyote Solutions, Christmans Wildlife Services for some 29-years... Bill also has been instructed by the very best Wolfer's in the Country, including legendary "Greg O'Gorman"...

Learn Coyote behavior, biology, strategies focused on your personal environment, trapping equipment, trail-camera set-up, computer apps, a total in-depth canine management program... Bill has been invited and spoken publicly, at several coyote management seminars...

Bill Christman is very approachable in his instructing, easy to communicate with, has the uncanny ability to tailor your personal Canine Goals...

Oops, Almost forgot to mention, the guy is a riot, and nuts to be with on the trap-line...

Sincerely,
John Lunetta
